TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, Python, Go (Golang), Java, SQL
- **Frontend:** React.js, Vite, Vue.js, HTML5/CSS3, responsive UI, admin dashboards
- **Backend & APIs:** Node.js, Express.js, Spring Boot, RESTful API design, Firebase Auth, Swagger/OpenAPI
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools & DevOps:** Git/GitHub, Docker, Docker Compose, GitHub Actions, Postman, Jira, VS Code, AWS basics
- **Practices:** Agile/Scrum, UML, clean code, requirements analysis
- **Professional Skills:** Analytical thinking, problem solving, teamwork, communication, initiative

EDUCATION

NATIONAL DIPLOMA IN INFORMATION TECHNOLOGY
Institute of Technology, University of Moratuwa
2025 – Present
Current GPA: 3.67

G.C.E. ADVANCED LEVEL (PHYSICAL SCIENCE)
Bandaranayake Central College, Veyangoda
2019 – 2021

CERTIFICATIONS

- AWS Cloud Practitioner Essentials, AWS Skill Builder (2026)
- Python Essentials 1 and Linux Essentials, Cisco Networking Academy (2026)
- AI for Beginners, HP LIFE (2026)
- Get started quickly with Jira, Atlassian University (2026)
- Personalize how you work in Jira, Atlassian University (2026)
- NVQ Level III & IV in Information & Communication Technology (2023)
- Diploma in Information Technology, IMBS Campus (2019)
- Diploma in Business English, IMBS Campus (2019)

PROFILE

IT undergraduate (National Diploma in IT, University of Moratuwa) aspiring to grow as a software engineer, with hands-on experience building multi-role, full-stack web applications end to end. Built React and Vue.js front ends, REST APIs with Node.js/Express, and data layers on PostgreSQL and MongoDB, containerized with Docker. Comfortable turning requirements into clean, working features in Agile teams, and eager to contribute to production code while learning from experienced engineers.

KEY PROJECTS

2026 DocRoad: Smart Vehicle Repair & Roadside Assistance Platform

Final Year Group Project | ***Role:*** *Full Stack Developer*

- **Multi-Role Platform:** Connects drivers with nearby mechanics for repairs and roadside emergencies; Admins use the web dashboard, Drivers and Mechanics use the Flutter mobile app.
- **Secure REST API:** Built a Node.js/Express API with Firebase token authentication and role-based access for Admin, Driver and Mechanic.
- **Data Layer & DevOps:** PostgreSQL for users and roles, MongoDB for other data; ran the full stack with Docker Compose.
- **Admin Dashboard:** Built the Admin-only React dashboard giving one view of drivers, mechanics, service requests, a live map and reports.

Stack: *React, Vite, Flutter, Node.js, Express.js, PostgreSQL, MongoDB, Firebase Auth, Docker* ***GitHub***

2026 HR Management System

Personal Project | ***Role:*** *Full Stack Developer*

- **REST APIs:** Built REST APIs in Go for managing employee attendance and leave, replacing a manual process.
- **Dashboard:** Built a responsive Vue.js admin dashboard connected to the Go APIs.

Stack: *Vue.js, Go (Golang), REST APIs* ***GitHub***

2026 FoundIt: Lost & Found Web Application

React Web Project | ***Role:*** *Front-end Developer*

- **Core Features:** Built the React front end for reporting, searching and claiming lost items.
- **Verification Workflow:** Implemented the claim verification flow and the item lifecycle from open to closed.
- **Planning:** Defined user classes, prioritized features and mapped user journeys before building.

Stack: *React.js, JavaScript, HTML5/CSS3, Git/GitHub* ***GitHub***

EXPERIENCE

ICT Technician | Global Leasing Limited, Colombo 10 (Mar 2023 – Sep 2023)

- **Technical Support:** Supported and troubleshot issues for internal system users, learning first-hand where software confuses or slows people down.

Bank Trainee | People's Bank, Nittambuwa (Feb 2024 – Oct 2024)

- **Customer Operations:** Handled customer operations and supported digital service tools, building strong communication and user-empathy skills.
