TECHNICAL SKILLS

- **Business Analysis: R**equirements gathering and documentation, functional and non-functional requirements, user stories, acceptance criteria, business rules, stakeholder analysis
- **Methods & Modeling:** Agile/Scrum concepts, UML (use case and activity diagrams, class diagrams), process analysis and improvement
- **Tools:** Jira (work items, boards, filters), Postman (API testing), Git/GitHub, Docker, VS Code
- **Data & Reporting:** Dashboard and report design, data visualization, SQL (PostgreSQL, MySQL), MongoDB
- **Technical:** React.js, Vue.js, JavaScript, TypeScript, HTML5/CSS3, REST APIs, Node.js, Go
- **Professional Skills:** Analytical thinking, problem solving, teamwork, communication, organization and multitasking

EDUCATION

NATIONAL DIPLOMA IN INFORMATION TECHNOLOGY

Institute of Technology, University of Moratuwa
2025 – Present
Current GPA: 3.67

G.C.E. ADVANCED LEVEL (PHYSICAL SCIENCE)

Bandaranayake Central College, Veyangoda
2019 – 2021

CERTIFICATIONS

- Introduction to CBAP, Simplilearn (2026)
- Get started quickly with Jira, Atlassian University (2026)
- Personalize how you work in Jira, Atlassian University (2026)
- AWS Cloud Practitioner Essentials, AWS Skill Builder (2026)
- Python Essentials 1 and Linux Essentials, Cisco Networking Academy (2026)
- AI for Beginners, HP LIFE (2026)
- NVQ Level III & IV in Information & Communication Technology (2023)

PROFILE

IT undergraduate (National Diploma in IT, University of Moratuwa) specializing in Business Analysis, requirements gathering, and Agile backlog management using Jira. Proficient in stakeholder analysis, writing functional and non-functional requirements, and designing user-centric workflows. Proven ability to bridge business goals with technical execution, translating complex user needs into comprehensive system documentation, functional dashboards, and scalable software solutions.

KEY PROJECTS

2026 DocRoad: Smart Vehicle Repair & Roadside Assistance Platform

Final Year Group Project | ***Role:*** *Business Analyst & Front-end Developer*

- **Requirements Engineering & SRS:** Requirements gathering, stakeholder analysis, and structured functional/non-functional requirements for the roadside assistance platform.
- **User Roles:** Designed around three user groups (Admin, Driver, Mechanic): Admins use the web dashboard; Drivers and Mechanics use the mobile app.
- **Smart Roadside Assistance:** Designed a digital platform enabling drivers to connect with nearby mechanics instantly during roadside emergencies.
- **Admin Dashboard:** Built the Admin-only React dashboard giving admins one view of drivers, mechanics, service requests, a live map and reports.

Stack: *React, Vite, Flutter, Node.js, Express.js, PostgreSQL, MongoDB, Firebase Auth, Docker* ***GitHub***

2026 Digital Clinic Appointment & Queue Management System

Business Analysis Practice Project

- **Process Analysis:** Analyzed a hypothetical clinic's appointment booking and queue processes to identify challenges and improvements.
- **Requirements:** Identified key stakeholders; defined scope, objectives and functional and non-functional requirements.
- **User Stories & Rules:** Wrote user stories, acceptance criteria, business rules.
- **Agile & Backlog Management:** Structured project backlogs in Jira by defining Epics and User Stories using Agile/Scrum methodologies.

Tools & Techniques: *Jira, Agile/Scrum, User Stories, UML* ***GitHub***

2026 FoundIt: Lost & Found Web Application

Business Analysis Problem-Solving Project

- **Requirements Engineering:** Defined scope, user classes and prioritized functional requirements for reporting, searching and claiming lost items.
- **Process Design:** Mapped user journeys, verification workflows, and the item lifecycle from open to closed.

Tools & Techniques: *Jira/Agile, Process Flowcharts, Git/GitHub* ***GitHub***

2026 HR Management System

- **Dashboard:** Built a responsive dashboard for managing employee attendance and leave, connected to REST APIs written in Go.

Stack: *Vue.js, Go (Golang), REST APIs* | ***Role:*** *Full Stack Developer* ***GitHub***

EXPERIENCE

ICT Technician | Global Leasing Limited, Colombo 10 (Mar 2023 – Sep 2023)

- **User Support:** Supported internal system users and learned first-hand where software confuses or slows people down.

Bank Trainee | People's Bank, Nittambuwa (Feb 2024 – Oct 2024)

- **Customer Operations:** Handled customer operations and supported digital service tools, building strong communication and user-empathy skills.
