TECHNICAL SKILLS

- **Frontend:** React.js, Vite, Vue.js, JavaScript, TypeScript, HTML5/CSS3, responsive UI
- **UI & Dashboards:** Admin dashboards, data visualization, reports, user journeys, user-centric workflows
- **API Integration:** RESTful APIs, Node.js
- **Other Languages:** Python, Java, SQL
- **Databases:** PostgreSQL, MongoDB, MySQL
- **Tools:** Git/GitHub, Docker, GitHub Actions, Jira, VS Code, AWS basics
- **Practices:** Agile/Scrum, UML, clean code, requirements analysis
- **Professional Skills:** Analytical thinking, problem solving, teamwork, communication, initiative

EDUCATION

NATIONAL DIPLOMA IN INFORMATION TECHNOLOGY
Institute of Technology, University of Moratuwa
2025 – Present
Current GPA: 3.67

G.C.E. ADVANCED LEVEL (PHYSICAL SCIENCE)
Bandaranayake Central College, Veyangoda
2019 – 2021

CERTIFICATIONS

- AWS Cloud Practitioner Essentials, AWS Skill Builder (2026)
- Python Essentials 1 and Linux Essentials, Cisco Networking Academy (2026)
- AI for Beginners, HP LIFE (2026)
- Get started quickly with Jira, Atlassian University (2026)
- Personalize how you work in Jira, Atlassian University (2026)
- NVQ Level III & IV in Information & Communication Technology (2023)
- Diploma in Information Technology, IMBS Campus (2019)
- Diploma in Business English, IMBS Campus (2019)

PROFILE

IT undergraduate (National Diploma in IT, University of Moratuwa) aspiring to grow as a frontend developer, with hands-on experience building responsive, multi-role web interfaces in React and Vue.js. Built admin dashboards with live maps and reports, connected them to REST APIs in Node.js/Express, and worked across the full stack with PostgreSQL, MongoDB and Docker. Comfortable turning user needs and requirements into clean, user-friendly features in Agile teams, and eager to contribute to production UI while learning from experienced engineers.

KEY PROJECTS

2026 DocRoad: Smart Vehicle Repair & Roadside Assistance Platform

Final Year Group Project | ***Role:*** *Front-end Developer*

- **Admin Dashboard:** Built the Admin-only React dashboard giving one view of drivers, mechanics, service requests, a live map and reports.
- **Multi-Role UI:** Designed around three user groups: Admins use the web dashboard, while Drivers and Mechanics use the Flutter mobile app.
- **API Integration:** Connected the dashboard to a Node.js/Express REST API secured with Firebase token authentication and role-based access.
- **Full-Stack Setup:** Worked within a Dockerized stack (PostgreSQL, MongoDB) run with Docker Compose.

Stack: *React, Flutter, Node.js, Socket.IO, PostgreSQL, MongoDB, Firebase Auth, Docker* ***GitHub***

2026 FoundIt: Lost & Found Web Application

React Web Project | ***Role:*** *Front-end Developer*

- **Core Features:** Built the React front end for reporting, searching and claiming lost items.
- **Verification Workflow:** Implemented the claim verification flow and the item lifecycle from open to closed.
- **User Journeys:** Defined user classes, prioritized features and mapped user journeys before building the UI.

Stack: *React.js, JavaScript, HTML5/CSS3, Git/GitHub* ***GitHub***

2026 HR Management System

Personal Project | ***Role:*** *Full Stack Developer*

- **Dashboard:** Built a responsive Vue.js admin dashboard for managing employee attendance and leave, replacing a manual process.
- **API Integration:** Connected the dashboard to REST APIs I built in Go.

Stack: *Vue.js, Go (Golang), REST APIs* ***GitHub***

EXPERIENCE

ICT Technician | Global Leasing Limited, Colombo 10 (Mar 2023 – Sep 2023)

- **Technical Support:** Supported and troubleshot issues for internal system users, learning first-hand where software confuses or slows people down.

Bank Trainee | People's Bank, Nittambuwa (Feb 2024 – Oct 2024)

- **Customer Operations:** Handled customer operations and supported digital service tools, building strong communication and user-empathy skills.
